

Catalogue Manager

Dashboard

The dashboard gives an overview of the documents that have been collected. Its purpose is to provide tools for automatic and human classification through a minimalistic but user friendly interface.

The dashboard is composed of a top panel and a lower panel. The top panel allow the user to browse through the documents and offers multiple filtering options. The lower panel is visible when a document is selected from the list by clicking its title and allows the user to set the acceptance state and add comments. A uniform preview of the document is also available.

Top panel

Search for..	Filter..	Website..	<input checked="" type="checkbox"/> Own
Unvalidated : 11533 Auto-rejected : 0 Auto-validated : 0 Total: 11549		Documents found: 27	
Title	Tags	States	
Joint Guidelines on the convergence of supervisory practices relating to the consistency of supervisory coordination arr... 1	<input type="text"/>	admin	confidence: 0.748, created: 4/22/20, 1:34 PM, last updated: 4/22/20, 2:19 PM
Introduction to Resolution Planning - Single Resolution Board	<input type="text"/>	admin	auto classifier
Key Attributes of Effective Resolution Regimes for Financial Institutions	<input type="text"/>	admin	
Guidelines on undertaking-specific parameters	Tag2 x <input type="text"/>	admin	User1
Guidelines on undertaking-specific parameters	Tag2 x <input type="text"/>	admin	User1
« 1 2 3 4 5 6 »			

- When clicking on a document title the document details will be shown in the lower panel
- The number behind a title (“1” in the screenshot) indicates that a document has a comment
- Tags can be added directly in the input field. Start typing and press “enter” to create a new tag for a document.
- The states column show the Acceptance State given by difference users where green means Accepted, red means Rejected and gray means unvalidated. A tooltip containing meta data is also available
- Documents that have been analyzed by an automatic classifier will also show up in the list of users
- The documents list has multiple filtering options
 - “Search for” show the documents that have the search term in their title
 - “Filter...” according to acceptance state (Unvalidated / Accepted / Rejected)
 - “Own” show only documents that have been validated by yourself (either Accepted / Rejected)
- The number seen after “Document found” is the number of results according to filtering options
 - The numbers on the left are for the entire collection of documents in the system
- Additionally a progress bar is shown above the table indicating the number (%) of documents that have been validated (either Accepted or Rejected)
- Below the table a pager is shown allowing to browse through the documents

Lower Panel

EURLEX : [Commission Regulation \(EEC\) No 3482/80 of 30 December 1980 amending Regulation \(EEC\) No 1045/77 laying down detailed rules for the application of measures to encourage the marketing of products processed from lemons](#)

Dec 30, 1980

Type: Regulation

Celex: 31980R3482

ELI: <http://data.europa.eu/eli/reg/1980/3482/oj>

Status: No longer in force, Date of end of validity: 21/06/1985

Various: OJ L 363, 31.12.1980, p. 89–90 (DA, DE, EN, FR, IT, NL) Greek special edition: Chapter 03 Volume 032 P. 197 - 198, ELI: <http://data.europa.eu/eli/reg/1980/3482/oj>

Choose Acceptance State:

New comment:

- After selecting a document from the list the detail of the document are shown
- Depending on which website the document originates from different meta data is displayed
- The title of the document will link to the original website
- When the document has attachments (pdf / html) they will be shown in a list. When clicking of a attachment a dialog wil popup displaying the content of the attachment
- Based on the information shown the user can make a decision if he / she wants to accept the document in the catalogue or reject it. This is done simply by clicking on the “Accepted” or “Rejected” labels. The state is stored immediately and the user can continue to the next document from the list.
- Additionally a comment can be added to the document for future reference

Glossary

Website: a datasource containing documents accessible via a network

Document: an individual page on a website containing the actual content

Attachment: a document may link to other files (pdf / word / html) attached to it
